- 2.3 This notice provides an update regarding the progress of the liquidation of the Company and winding up of the Partnerships. This notice should not be used for any other purpose, and it cannot be relied upon to inform any investment decision in relation to any debt or financial interest in LP I and the Partnerships. We caution those parties interested in the LP I Preferred Securities and any other stakeholders who may have an interest in the winding-up of the Partnerships against using data in this notice as a basis for estimating the likelihood and/or value of any potential payment from LP I and/or any of the Partnerships.
- 2.4 The information set out in this notice is being distributed to all of those that are recorded as account holders in the relevant clearing system in relation to the LP I Preferred Securities ("the Account Holders") at the same time. 3 BACKGROUND

- 3.1 Bruce Alexander Mackay and Matthew Robert Haw of RSM UK Restructuring Advisory LLP were appointed as joint liquidators ("the Joint Liquidators") of the Company on 28 February 2017. The Joint Liquidators have issued seven earlier detailed notices to Account Holders. To avoid unnecessary repetition, Account Holders are referred to earlier reports for detail relating to historic matters and this report focuses on current relevant issues. Where possible, the same defined terms are used in this notice as used in earlier updates.
- 3.2 Although this specific notice is addressed and has been distributed (to the extent possible) to the Account Holders of the LP I Preferred Securities with ISIN XS0215349357 issued by LP I, this notice contains information that may be relevant to each of the Partnerships and is therefore to be read as a composite update to enable the Account Holders of Securities issued by each of the Partnerships to understand the position applicable to all of the Partnerships. Separate notices (in materially the same form) have been distributed to the Account Holders of Securities issued by each of the Partnerships.

The future realisations of LP I, LP II and LP III will depend upon eventual recoveries from LBH in relation to the Sub-Notes claims, which are subject to ongoing litigation. Liquidation costs remain subject to re-apportionment in due course, including some costs to LP I and LP II.

Claims by LP I, LP II and LP III against Lehman Brothers Holdings Plc ("LBH")

- 4.2 Paragraphs 4.3 to 4.33 are only of direct relevance to the Account Holders of Securities issued by LP I, LP II, and LP III.
- 4.3 LBH issued subordinated loan notes to LP I, LP II, and LP III in return for the payment of the regulatory capital that had been raised by the issuance of the Securities by LP I, LP II, and LP III. These three Partnerships have a claim for payment of a dividend by LBH in relation to the subordinated notes that were issued.
- 4.4 The Joint Administrators of LBH have issued an updated estimated outcome statement for LBH dated June 2023, which is available for view on PwC's website as follows:

Lehman Brothers Holdings PLC Update - June 2023 (pwc.co.uk)

4.5 The above link provides a narrative update relating to matters impacting the financial outcome for creditors of the LBH estate together with an updated estimated financial outcome statement and is directly relevant to the estimated value of the three Partnerships' claims for payment of a dividend by LBH in relation to the subordinated notes.

- 4.6 The updated estimated outcome statement is based upon various assumptions which are explained in the estimated statement referred to in the above link.
- 4.7 In addition to the variables relating to the value of LBH's estate (i.e. what LBH may have available to distribute) and as explained in the above link, any value to be distributed to the three Partnerships will also be impacted by the final outcome of ongoing litigation between LBH, the three Partnerships and LBHI (see 4.9 below), in particular, applications for directions issued in March and April 2023.

Priority of subordinated claims against LB Holdings Intermediate 2 Limited ("LBHI2") and LBH

4.8 As explained in previous update notices, the subordinated claims of LBH against LBHI2, and of LP I, LP II, and LP III against LBH were found by the Court of Appeal to rank ahead of the respective claims of Scottish LP 3 and Lehman Brothers Holdings Inc. ("LBHI"). An application by LBHI to the Supreme Court for permission to appeal was not successful. The litigation that concluded in the Court of Appeal is hereinafter referred to as the "ECAPS 1 Applications" or "ECAPS 1".

March and April 2023 priority legal issues application and related Court applications

- 4.9 In March and April 2023 new directions applications were issued to seek the Court's determination on certain new areas of contention arising in relation to LBH's estate. The applications are summarised as follows:
 - 4.9.1 Application notice dated 14 March 2023 between (1) The Joint Administrators of LBH and (2) the Company, (3) LBHI and (4) Deutsche Bank A.G. (London Branch) ("DB") whereby the Joint Administrators of LBH sought directions from the Court on the priority and payment of future distributions to the subordinated creditors of LBH (the "ECAPS 2 Priorities Application");
 - 4.9.2 Application notice dated 25 April 2023 between (1) the Joint Administrators of LBH and (2) the Company whereby the Joint Administrators of LBH sought directions in relation to their entitlement to pay a distribution to the Company in relation to the LBH Sub-Notes notwithstanding the failure of the Company to submit a proof of debt (the "Distribution Application"); and
 - 4.9.3 Application notice dated 27 April 2023 between (1) DB, (2) the Joint Administrators of LBH, (3) the Company and (4) LBHI, seeking an order that the legal issues 1,4 and 5 (as explained in the Directions Application) should be struck out on the basis of estoppel, issue estoppel and/or abuse of process (the "Strike Out Application").
- 4.10 The above applications are referred to as the "ECAPS 2 Applications" or "ECAPS 2" and a summary of the core aspects of the ECAPS 2 Applications is as follows.

ECAPS 2 Priorities Application: Priority legal issues as regards statutory interest

- 4.11 Whether, as argued by LBHI, the principal amount of the LBH Sub-Debt (Claim C) falls to be paid in priority to statutory interest payable on the claim in respect of the LBH Sub-Notes (Claim D), or whether, as argued by the Joint Liquidators and by DB, statutory interest payable on the LBH Sub-Notes falls to be paid in priority to the principal amount of the LBH Sub-Debt. ("Priority Legal Issue 1")
- 4.12 Whether, as argued by the Joint Liquidators and DB, statutory interest payable on the claim in respect of the LBH Sub-Notes falls to be calculated by reference to the face amount of the LBH Sub-Notes, or as argued by LBHI, by reference to the discounted sum payable on that claim in accordance with Rule 14.44 of the Insolvency (England and Wales) Rules 2016. ("Priority Legal Issue 2")
- 4.13 Whether, as argued by the Joint Liquidators and DB, the applicable period for the purposes of the calculation of statutory interest on the claim in respect of the LBH Sub-Notes begins with the date on which LBH entered administration, or, as argued by LBHI, on the date on which, in accordance with the subordination provisions of the LBH Sub-Notes, the holder of the LBH Sub-Notes became entitled to submit proofs of debt in LBH's administration in respect of that claim (and, if so, what that date is). ("Priority Legal Issue 3")

ECAPS 2 Priorities Application: Priority legal issues as regards the ECAPS Guarantees

- 4.14 Whether, as is argued by LBHI, clause 2.11 of the ECAPS Guarantees imposes upon the Holder (as defined therein) a trust in respect of any proceeds which have been distributed by LBH, which takes effect on receipt of those proceeds and requires such proceeds to be turned over to LBH. If so, what are the circumstances in which such trust arises and in respect of what proceeds? ("Priority Legal Issue 4")
- 4.15 If LBH makes distributions on the LBH Sub-Notes but proceeds are thereafter ordered to be turned over to LBH by the Holder pursuant to clause 2.11 of the ECAPS Guarantees, what is the resultant order of priority as between the LBH Sub-Debt (Claim C) and the LBH Sub-Notes (Claim D), in respect of such sums received by LBH? ("Priority Legal Issue 5")
- 4.16 LBH's directions application dated 14 March 2023 and the accompanying witness statement of Edward John Macnamara, which provide further factual and background information to the statutory interest and ECAPS Guarantees issues, can be found on PwC's website and the links are copied below:
 - <u>LBH Application Notice dated 14 March 2023 (pwc.co.uk)</u>
 - LBH Witness statement 14 March 2023 signed by Ed Macnamara (pwc.co.uk)

Strike Out Application

4.17 The Strike-Out Application, issued by DB, argues that some of the issues raised in the LBH Joint Administrators' application of 14 March 2023 have already been resolved by the ECAPS 1 Applications or that those issues should have been addressed during the ECAPS 1 proceedings.

Distribution Application

- 4.18 The circumstances which gave rise to the Distribution Application were as follows:
 - 4.18.1 On 31 March 2023 the LBH Joint Administrators gave notice of their intention to declare an eighth interim distribution ("**the Dividend**") to unsecured, non-preferential creditors within two months from the last date of proving, being 28 April 2023.
 - 4.18.2 In the Dividend notice, the Joint Administrators anticipated that in addition to a further distribution being made to LBH's unsecured, non-preferential unsubordinated creditors, the amounts available for distribution would also enable a distribution to be made in respect of LBH's unsecured, non-preferential subordinated liabilities. This would mean a first distribution to the Company, as the senior subordinated creditor.
 - 4.18.3 Meanwhile, LBHI put the Joint Liquidators on notice that any dividend received from LBH should not be onward distributed by the Company for the benefit of the holders of the Securities; this being on account of LBHI's asserted position in relation to the ECAPS Guarantees, as described above.
 - 4.18.4 The Joint Liquidators of the Company opposed the Dividend because it would lead to prejudice to the holders of the Securities. This would arise from a loss of statutory interest payable by LBH on the amount of the Dividend paid to the Company, which could be held as un-distributable for some considerable time pending the final resolution of the ECAPS Guarantees position.
 - 4.18.5 The Joint Liquidators also formally opposed LBH's requirement for the Company to file proof of debt forms.
 - 4.18.6 These arguments and counterarguments ultimately resulted in the Joint Administrators of LBH filing the Distribution Application.
- 4.19 On 28 April 2023, on behalf of LPI, LPII, and LPIII, the Joint Liquidators filed proof of debt forms in the LBH Administration. Given the Joint Liquidators' position that it was premature for the Company to be required to file proof of debt forms, these were filed without prejudice to the Company's position that it was in fact too early for proofs of debt to be filed.

4.20 On 6 June 2023 the LBH Joint Administrators postponed the Dividend pursuant to Rule 14.34(1) of the Insolvency (England and Wales) Rules 2016, pending the hearing of the Distribution Application.

ECAPS 2 Hearing – case management

4.21 A case management hearing took place on 4 May 2023, and at that hearing the Court determined the procedural timetable for the ECAPS 2 Applications. A copy of the transcript from the 4 May 2023 hearing can be found at Appendix 1 of this update. A copy of the sealed Order made by Mr Justice Hildyard setting out the procedural directions can be found on PwC's website and a link is included below (the "4 May 2023 Order"):

<u>lehman-order-sealed-hildyard-j-may-23-priority-legal-issues-procedural-hearing.pdf</u> (pwc.co.uk)

- 4.22 The 4 May 2023 Order handed down after the case management hearing provides that the ECAPS 2 Applications will be heard together at a hearing listed to take place during the week commencing 9 October 2023. The hearing is estimated to last for 5 days including 1 day of judicial pre-reading.
- 4.23 The 4 May 2023 Order also provided a timetable for position papers and any further relevant evidence to be exchanged by the parties ahead of that hearing, as well as procedural directions in relation to the preparation for the hearing itself. In accordance with the 4 May 2023 Order the parties have now exchanged Position Papers and Reply Positions Papers. Copies can be found on PwC's website and the links are copied below:

Position Papers exchanged on 30 June 2023:

LB GP No1 Limited (In Liquidation) Position Paper (pwc.co.uk)

Deutsche Bank AG (London Branch) Position Paper (pwc.co.uk)

LBH Administrators' Position Paper (pwc.co.uk)

LBHI Position Paper (pwc.co.uk)

Reply Position Papers exchanged on 28 July 2023:

LB GP No1 Limited (In Liquidation) Reply Position Paper (pwc.co.uk)

Deutsche Bank AG (London Branch) Reply Position Paper (pwc.co.uk)

LBH Administrators Reply Position Paper (pwc.co.uk)

LBHI Reply Position Paper - 28 July 2023 (pwc.co.uk)

4.24 The 4 May 2023 Order also confirms that skeleton arguments must be exchanged by the parties by 2 October 2023.

4.25 A final hearing in relation to the ECAPS 2 Applications is listed from Monday 9 October 2023 to Thursday 12 October 2023 ("the ECAPS 2 Hearing").

Application against third parties

4.26 By way of an application dated 8 April 2022 (the "**Third Parties Application**") the Company filed an application against various third parties seeking a variety of monetary and non-monetary relief relating to the allegation that the third parties failed to intervene to prevent a breach a trust with the effect of reducing the value of funds potentially available to the Company and hence the Account Holders of the Securities of LP I, LP II, and LP III. The application has been stayed by consent between the parties until 28 days after the final determination of the ECAPS 2 Application.

Funds potentially flowing from the LBH estate to LP I, LP II and LP III

4.27 Following a review of the estimated value of LP I, LP II and LP III's discounted claims in tandem with the LBH Joint Administrators' most recently published estimated financial outcomes for the LBH stakeholders, the Joint Liquidators have prepared a table to show the potential flow of funds to LP I, LP II and LP III based on the outcome of ECAPS 1, before any entitlement to statutory interest. The sums ultimately to flow to LP I, LP II, and LP III are dependent on the final outcome of the ECAPS 2 Applications.

Please note that the figures in the table below are indicative only at this stage and subject to a number of significant assumptions. The figures are as disclosed by the LBH Joint Administrators in the latest public filing (June 2023) and have not been tested or audited by the Joint Liquidators. The Joint Liquidators refer readers to sections 1 and 2 of this update.

Estimated outcome for LP I, LP II and LP III	Notes	Base Case Recovery	High Case Recovery
as subordinated creditors of LBH		£'m	£'m
Total estimated funds available	1	548	711
Estimated deductions	1	(315)	(221)
Total potential recoveries for LP I, LP II and LP III		233	490
Represented by			
LP I, LP II and LP III subordinated claims			
- Principal claims (£168m discounted)	2	(168)	(168)
- Accured unpaid interest to 15.09.2008 (undiscounted)	3	(19)	(19)
Estimated surplus	4	46	303

Notes

- 1. The above estimated outcomes have been taken from LBH's June 2023 update (linked at paragraph 4.4 of this report) and all the assumption in their update should be applied to the above estimated outcomes.
- 2. The figure of £168m represents the combined estimated discounted principal claims of LP I, LP II, and LP III. It is currently estimated that there will be more than sufficient funds in both the 'Base Case' and 'High Case' for LP I,

- LP II, and LP III's collective total principal claim of £168m to be paid in full. This is subject to the Court rulings following the hearing of the ECAPS 2 Applications, in particular any finding in relation to the ECAPS Guarantees and Clause 2.11.
- 3. In addition to the principal claims the proof of debt forms filed in the LBH Administration on 28 April 2023 included an additional claim for accrued and unpaid interest from the date the last coupon was paid on the Sub-Notes up to the date of the LBH Administration on 15 September 2008. The additional accrued interest claims are not subject to discounting.
- 4. After the payment of LP I, LP II, and LP III's principal discounted subordinated claims totalling £168m and the additional accrued interest claims of £19m an estimated surplus of between £46m and £303m will remain in the LBH estate, based on the LBH June 2023 creditor update. Based on legal advice received, it is the Joint Liquidators' position that all and any part of the estimated surplus should first be applied to settle the statutory interest payable on the LP I, LP II, and LP IIIs principal claims in priority to any claim made by LBHI in respect of the LBHI Sub-Debt.
- 4. The basis of calculating the LP I, LP II and LP III statutory interest claim is yet to be determined. Both the priority of payment of the statutory interest due on the LP I, LP II and LP III Sub-Notes and the calculation methodology of the statutory interest due are to be determined within the ECAPS 2 Applications to be heard in October 2023.
- 4.28 At this stage the Joint Liquidators do not know when surplus funds are likely to start to flow from the LBH estate to enable interim distributions to be made to the Account Holders of the Securities in LP I, LP II, and LP III but, subject to what is said in paragraphs 4.29 to 4.37 below, it may not be possible until the issues set out in the ECAPS 2 Applications have been determined by the Court (including any appeals).

Proposed agreement concerning distributions from LBH

- 4.29 Following recent confidential, without prejudice and subject to contract discussions between certain Account Holders, a possible outline of an agreement concerning the distributions from LBH was brought to the Joint Liquidators at the beginning of September 2023. The terms of the possible agreement have since been developed and the parties to the ECAPS 2 Applications (and other relevant parties) have, subject to contract, agreed preliminary terms for the distribution of funds from LBH to LBH's subordinated creditors. The proposed terms of that distribution are set out in the terms sheet at Appendix 2 of the Notice ("the Proposed Terms"). The documents and information provided in Appendix 2 are confidential, without prejudice and subject to contract. The Proposed Terms involve the cessation of certain aspects of the litigation referred to in this update concerning GP1 and LBH, in summary as follows:
 - 4.29.1 Priority Legal Issues 2, 3, 4 and 5 in the ECAPS 2 Application would be withdrawn. Priority Legal Issue 1 would remain to be resolved by the Court.
 - 4.29.2 The Distribution Application would be withdrawn.
 - 4.29.3 Priority Issues 4 and 5 would be withdrawn from the Strike Out Application.
 - 4.29.4 The Third Parties Application would be withdrawn in full.
- 4.30 The Proposed Terms would require implementation ahead of the ECAPS 2 Hearing, due to start on 9 October 2023.

- 4.31 Appendix 3 is a comparative estimated outcome statement that demonstrates some of the possible Base Case Recovery / High Case Recovery (terms as per table in paragraph 4.27 above) in relation to the ECAPS 2 Applications and interrelation with the Proposed Terms. Please note that the sums disclosed are after accounting for the costs incurred in the LBH administration estate but are subject to costs incurred in the GP1 liquidation estate that are attributable to LP I, LP II and LP III.
- 4.32 The Joint Liquidators are aware that efforts are being made by certain Account Holders, that have taken an active participation in the winding up of the Company and the Partnerships, to determine whether support for the Proposed Terms can be confirmed in writing by certain known and significant Account Holders in each of LP I, LP II and LP III. A template letter of support (the "Letter of Support") is set out in Schedule 1 of Appendix 2 to this notice. One of the purposes of canvassing levels of support for the Proposed Terms on a non-binding basis. The Joint Liquidators are supportive of the Proposed Terms but before entering final binding agreements in relation to the Proposed Terms want: (i) evidence of support (in the form of a Letter of Support) from at least a simple majority of Account Holders in each of LPI, LP II and LP III; and/or (ii) to understand whether there are any significant objections from Account Holders in relation to the Proposed Terms.
- 4.33 Account Holders that wish to express their support for the Proposed Terms (and the Joint Liquidators entering final and binding agreements in that regard) should complete the Letter of Support and return it urgently to the Joint Liquidators.
- 4.34 Alternatively, any Account Holders with any comments or significant objections relating to the Proposed Terms should make them known urgently to the Joint Liquidators.
- 4.35 Any Letters of Support, comments or objections from Account Holders should be provided as soon as possible by email to the Joint Liquidators in accordance with paragraph 9.1.2 below and in any event no later than 12 midday (UK time) on Thursday 5 October 2023.
- 4.36 Any Account Holder that is uncertain as to their legal rights should seek independent legal advice.
- 4.37 In the absence of objections and/or non-supportive comments, if the exercise described in paragraph 4.32 above gives rise to a clear majority (by value) of the total Securities issued for each of LP I, LP II and LP III confirming support for the Proposed Terms, the Joint Liquidators propose to enter into formal documents finalising the terms set out in the Proposed Terms (or a revised version of the Proposed Terms that is considered acceptable by the Joint Liquidators).

 - 5.8.3 As yet these costs have not been agreed and reimbursed, and the Joint Liquidators will follow up with Dentons UKMEA LLP to progress this matter to a conclusion.
- 5.9 Weil Gotshal & Manges (Solicitors for LBHI) (subject to the Joint Liquidators' assessment with regards to the reasonableness of those fees)
 - 5.9.1 Time costs: USD 97,795 (up to 11 April 2017 as per proof of debt form). As at the date of the Company's liquidation this sum converted to approximately £78,661.
 - 5.9.2 Following a review of these costs by the Joint Liquidators and discussions between the Joint Liquidators and LBHI, settlement was agreed at £59,000. The sum of £33,500 was deducted as settlement of LBHI's costs payable to the Company for the Supreme Court hearing in ECAPS 1. The net payment of £25,500 was made to LBHI in September 2022.
- 5.10 Agents' costs: It should be noted that additional costs have been incurred and will be discharged in connection with the maintenance of agents and the provision of information to the Account Holders of the Securities.
- 5.11 The professional costs and disbursements outlined above relate to necessary steps that have been taken to place the Company into liquidation and to undertake the process of winding up the affairs of the Partnerships. The process is complex and multifaceted, which has involved and continues to involve extensive multi-party litigation with a number of significant and novel ongoing issues.

- 5.12 The professional costs and disbursements have been (and will continue to be) paid from sums realised (now and in the future) from the Partnerships' assets in accordance with the Order of the Court. To date the costs have been paid and apportioned as follows:
 - 5.12.1 Costs relating to all Partnerships have been paid from the Funds (see para 4.1 above) and apportioned between LP III, LP IV, and LP V. To the extent any funds are realised from claims against LBH in relation to LP I and LP II then the apportionment of costs will be adjusted accordingly so that no one Partnership (or more than one) disproportionately bears the costs of the winding-up of the Partnerships collectively.
 - 5.12.2 Costs specifically relating to LP I, LP II, and LP III in relation to the subordinated debt claims against LBH are currently being paid from LP III's Funds as LP I and LP II currently have no cash assets. LP IV and LP V have not contributed to these costs on the basis that work undertaken in relation to the subordinated debt claims against LBH does not relate to LP IV and V. To the extent any funds are realised in relation to the claims against LBH by LP I and LP II then the apportionment of costs will be adjusted accordingly so that LP III does not disproportionately bear the costs of issues relating jointly to LP I, LP II, and LP III.
- 5.13 At the date of this update the Joint Liquidators hold the following cash balances in each of the Partnerships. These figures are net of costs that have been paid to date but they do not take into account accrued or future costs:
 - 5.13.1 LP III: €7,836,396
 - 5.13.2 LP IV: €628,320
 - 5.13.3 LP V: \$1,702,606

The LP IV and LP V net balances are after interim distributions that were made to those Partnerships' Securities Account Holders in October 2020, as referred to in Section 6 below.

- 5.14 The current hourly rates of those expected to be involved in this matter going forward are set out below (figures quoted exclude input VAT where applicable):

7 FURTHER UPDATE NOTICES TO HOLDERS OF SECURITIES

- 7.1 The Joint Liquidators will continue to provide update notices to Account Holders of Securities as and when there are significant matters to report and otherwise routinely on approximately an annual basis by the following methods:
 - 7.1.1 To the extent possible, by notice distributed via the clearing systems relevant to the Securities for each Partnership (i.e. either the Euroclear system or Clearstream system); and
 - 7.1.2 To the extent possible, by notice distributed via the relevant exchanges upon which the Securities for each Partnership are listed.

8 INFORMAL INVESTORS' COMMITTEE

- 8.1 Since the commencement of the winding up of the Partnerships, the Joint Liquidators have been approached by a number of Account Holders of the Securities and they have requested that an informal investors' committee ("IIC") is established.
- 8.2 The Joint Liquidators have established such an IIC. The IIC has two members, with the second member only having joined the ICC in February 2021. There have been no formal meetings of the ICC to date but the Joint Liquidators have engaged on an *adhoc* basis with the two members.

- 8.3 In order to join the IIC, an Account Holder of Securities will be required to sign a Memorandum of Understanding ("MOU") as well as a Non-Disclosure Agreement ("NDA").
- 8.4 If you are an Account Holder of Securities and you are interested in becoming a member of the IIC you will be required to enter into the MOU and NDA on the same terms as the current members and any other prospective members. To confirm your interest in joining the IIC, please contact Samantha Hawkins using the details provided at 9.1.2 below and verify your holding of the Securities in the manner set out at paragraph 9.2.2 below.
- 8.5 Please be reminded that the IIC has no statutory powers and will be non-binding upon the Joint Liquidators. Its purpose, if utilised, is to provide an additional means of liaising with Account Holders of Securities in relation to the Partnerships and providing a forum for discussing and providing feedback to the Joint Liquidators in relation to the various issues arising.

There is a measure of -- more than 21 Mr Taylor, and the proposal is that LBHI serve evidence 22 2.2 a measure of consensus between the parties that in response at the same time as the postion papers on 2.3 an efficient way of resolving the procedural questions 23 30 June --MR_IUSTICE HII DYARD: This is not in the --2.4 2.4 before the court is to order, if the court is willing to 25 25 MR BELTRAMI: It is not in the draft -do so, a combined hearing of all three, and the 1 advantage of course is that it is more efficient, it MR JUSTICE HILDYARD: Sorry these are additions --1 2 will mean probably the strike-out will disappear and it 2 MR BELTRAMI: These are additions to this draft, yes. 3 may well be that distribution application becomes less 3 MR JUSTICE HILDYARD: So LBHI ... 4 poignant, given the fact it's in the context of 4 MR BELTRAMI: LBHI to serve evidence in response to the 5 5 everything else strike -out application by 4 pm on 30 June 2023 The only caveat to that is that the administrators 6 Response from Deutsche Bank -- is that envisaged? Yes. 7 certainly and I think at least some of the other parties 7 With Deutsche Bank to serve any responsive evidence, 8 are keen to have this determined sooner rather than 8 I am anticipating 28 July for that. So that is 9 later, for the reasons set out in our skeleton. Nobody 9 the strike -out evidence piece. 10 10 MR JUSTICE HILDYARD: I mean, I don't want to wade into seems to think that the issues are complex, or at least evidentially complex and will therefore require a long 11 11 things which I only barely understand and which you will 12 lead in, and the nub of it is that the administrators 12 all be very much more up to speed on than I am presently 13 are keen, if at all possible and subject to the court, 13 but my understanding of the strike—out, as far as it 14 to have this determined in the early autumn period, in 14 goes, is that Deutsche say that all these matters were 15 15 particular October if that can be done. concluded or ought to have been concluded by the 16 16 What the parties have been discussing is the Court of Appeal when the judgment of Mr Justice 17 possibility of a set of directions for a four-day 17 Marcus Smith was appealed. 18 hearing with one-day reading in addition to that before 18 MR BELTRAMI: My Lord, yes.

your Lordship, if your Lordship were willing to hear it, in October if your Lordship were willing to order that to be done in October.

Can I show you and to explain where we have got to a draft order which I hope you will find in something called a supplemental correspondence bundle.

MR BELTRAMI: The argument before by LBHI is that if a distribution is made to GP1 and they distribute onwards through the holder, the holder holds on trust and returns back to PLC. At the moment, as far as we can see, nothing has

timeframe that we have identified. The parties are

1 been said that is indicative of the need for evidence on 2 the issues, but who knows, in a sense until we see the 3 postion papers. But that shouldn't -- it is not 4 intended that would hold up the process. 5 Were that to happen, and therefore were the 6 postion papers to generate a requirement on one party or 7 another to produce evidence on something then that party 8 will just have to do it in time. It is not envisaged 9 that would mean or lead to an adjournment of the hearing 10 date because that is in a sense the prize that

MR JUSTICE HILDYARD: I understand the only warning I would give is that if the court is persuaded, and listing in particular, is persuaded to give you what in effect is an accelerated hearing, I don't think it would be appreciated if by reference to evidence or any need for cross-examination or anything like that, the initial time estimate of four to five days were to be exceeded.

Those are all submissions. 18 MR BELTRAMI: Yes.

19 MR JUSTICE HILDYARD: That is why I was wondering about the 2.0 witness statement. But, you know, I appreciate that 21 once one person puts in evidence, the other person 2.2 wishes to retain the right to reply, if it occurs to 23 them to be necessary. 24 MR BELTRAMI: Your Lordship is right. The argument as

I understand it in any event from the Deutsche Bank side

10

1 is that, well, what you are now seeking to do is to 2 overturn the order of priority determined between LBHI 3 and GP1 and therefore you should have done it before. 4 The response to that, as I understand it, is, no, no, 5 no, the order of priority between LBHI and GP1 was before the court last time; what we are now talking 6 7 about is a further link down the chain which is what 8 happens when the next person receives the money. And -9 MR JUSTICE HILDYARD: The 2.11 point, if I can put it that 10 way, it might have surprised Court of Appeal to know 11 that they were making all sorts of findings which were 12 going to be run but that will be a matter dealt with in 13 14 MR BELTRAMI: Yes, your Lordship is right, it's a matter of 15 argument based on the record rather than a matter of 16 argument based on individual evidence which might make 17 18 MR JUSTICE HILDYARD: Yes. Can I just clarify one thing. 19 The tentative or provisional agreement between you which 20 is obviously very welcome, though I know it comes with 2.1 a condition attached which I will have to go and find 22 out about, and I will return to, is it now -- when we 2.3 get to the big feast in October, is it now agreed that 2.4 the strike -out will, as it were, just become part of the 25 argument or is it still envisaged that there might be

1 some argument as to whether that should be dealt with 2. first or separately or any such thing? 3 MR BELTRAMI: My Lord, that is probably not really in my MR JUSTICE HILDYARD: No, I am sorry, Mr Beltrami, I am 5 6 probably asking the wrong person. But I just wanted to 7 be clear. What I would be nervous of is if we are going 8 to have an argument as to whether there should be 9 a strike -out in October, because I just -- I would 10 prefer to think that the agreement extended beyond that. 11 But I obviously can't force people. 12 MS TOLANEY: Your Lordship is quite right, the strike-out 13 will have to be subsumed within the issues at that 14 point 15 MR JUSTICE HILDYARD: So you will be saying, look, I win 16 because the Court of Appeal has already decided this. 17 MS TOLANEY: Exactly. 18 MR JUSTICE HILDYARD: Yes. 19 MR BELTRAMI: My Lord, it may be the strike-out per se 2.0

becomes less of an issue because the matter will be 21 determined finally in any event. I imagine the court will be proceeding on the rather different -- the final

I have read your skeletons as 18 you suggested I should, and I have read the 19 correspondence exchanged between the parties which 20 showed the emergence of fundamental disagreements, in 21 particular the one which caught one's eye most obviously 22 was the issue of statutory interest. 23 MR BELTRAMI: Yes. 24 MR JUSTICE HILDYARD: I have a question on that which will

1	position that I have read a lot and I am sort of muddled
2	probably. I can see various points but probably haven't
3	worked out how they interrelate fully . I wondered
4	whether it was necessary for me to scratch my head at
5	the present time or not.
6	MR BELTRAMI: My Lord, I don't think it is. Your Lordship
7	saw we have five issues . The $$ round 1 sorted out, if
8	you like, the basic issue of priority in the estate
9	between the two competing creditors; round 2 was
L O	initiated towards the end of last year when the
L1	administrators sought to identify points of
L2	disagreement, they sought to edge the parties towards
L3	agreement without much success, and therefore the five
L4	points emerged. Three of the points are pure priority
L5	points if you like: statutory interest first $$
L6	statutory interest on these sub-notes take priority over
L7	the principal of the sub-debt. That is the first
L8	priority issue. Is statutory interest based on the face
L9	value of the notes or the discounted value of the notes?
20	That is the second issue. Does statutory interest run
21	from the date of administration or the date, whenever
22	that is, that the holders of the $sub-notes$ were entitled
23	to proof.
24	So those were the three priority points on statutory

17

1 Points 4 and 5 relate to the different issue of 2 clause 2.11, which isn't really a priority issue in the 3 same way as the statutory interest issue, but it is an issue which arises in the context of the distribution 5 obviously where the contention is, as I said earlier, 6 that if distributions are made to GP1 as the creditor of PLC, and GP1 distributes through the holder in the 7 system, to its creditors, who are Deutsche Bank and 8 9 others, the holders of the ECAPS --10 MR JUSTICE HILDYARD: Have the registered holders, BNY, 11 indicated whether they do or don't want to be joined? 12 MR BELTRAMI: No, the position is "not yet". We have 13 written to them I think at least three times. first to 14 notify them of the issue and then to notify them of the 15 application on the hearing. I was told this morning 16 they haven't come back yet. 17 MR JUSTICE HILDYARD: Some process that they be bound must 18 be found. Because I can take it $\,--\,$ I can assume on the 19 basis of what I am told that the entire economic 2.0 interest is elsewhere, but I think I must bind the 21 registered holders in some way. 2.2 MR BELTRAMI: Yes, we accept -- we have always anticipated 23 they would need to be bound. Obviously they could agree

1 MR BELTRAMI: -- or they could insist on joining, or at 2 least if they don't agree to be bound they will have to 3 4 MR JUSTICE HILDYARD: Or they could appear by counsel for 5 that purpose to be bound, as it were, by counsel for the economic interest holders, to be bound in that way. All 6 7 I am flagging is we --MR BELTRAMI: Yes. 8 9 MR JUSTICE HILDYARD: $\,--$ can't leave that in the air. 10 MR BELTRAMI: No, we are conscious that will need to be 11 done. We don't anticipate that they will have any 12 substantive --MR JUSTICE HILDYARD: Contribution. 13 MR BELTRAMI: -- interest in the matter and therefore if 14 15 they don't agree formally to be bound, we anticipate 16 there won't be any major issue about having them bound 17 through the order of the court or otherwise. So it 18 hasn't been done yet, we hoped their position would be 19 clear by today, it hasn't been. 2.0 We are certainly conscious of the fact that we need 21 to clarify it, but we will aim to do it. If we still 22 don't hear anything from them in the near future we will 23 have to maybe take some further steps but your Lordship 2.4 is right, they need to be brought into the process in

19

a way, even if it is a matter of formality.

1 MR JUSTICE HIJ DYARD: Yes MR BELTRAMI: So that is the 2.11 issue, so does it all come 2 3 back to PLC, and if it does all come back to PLC, what do the administrators then do with it? LBHI's case is, 5 well, give it to them, does it go around another loop 6 forever? There are no doubt interesting questions about 7 8 Those are the five issues. Insofar as we have 9 received from the competing parties their position on 10 those issues or their arguments on those issues, it 11 appears that it turns on either interpretation of the 12 rules or interpretation of the previous decisions either 13 from Waterfall or from what they call ECAPS 1. So as I said earlier, we don't see at the moment any 14 15 or at least very much scope for an evidential enquiry as 16 opposed to a legal argument based on the issues we have 17 identified . 18

So those are the issues . The administrators clearly wish to have those issues resolved in order that they can continue with the distributions which are envisaged from the estate. We have indicated the amount, which on current estimation will be available to be subordinated creditors and therefore there certainly needs to be an argument.

There are other issues floating around, to be

absolutely clear about this. You may have seen 2 reference to something called partial discharge which is 3 being looked at based on the decision of the 4 Court of Appeal on that issue, and there are various 5 other points that have been raised. So I can't pretend at the moment that the determination of the five issues 6 7 identified will be the end of the story. It may be that it will be the end of the story but there may be other 8 9 things coming through the pipeline in due course. But 10 we can only do what we can do in terms of having these 11 matters resolved. MR JUSTICE HILDYARD: This may be a piece of string 12 13 question, but do you envisage that everyone will try and 14 work out what those are before this October date, if we 15 can achieve it, or is this just a sort of future feast 16 with no date? 17

MR BELTRAMI: The principal additional unresolved issue is what they call the partial discharge issue, and that relates to payments made to, I think mainly unsubordinated creditors historically, who have been in receipt of guarantee payments from LBHI before the Court of Appeal's judgment. The Court of Appeal decided that, in relation to LBHI's subordinated claim, partial discharge reduced the amount. But the argument is, by analogy, in order to reduce their amount, they may have

been overpaid in terms of statutory interest, or indeed principal on those sums. That requires obviously legal consideration and some economic consideration, and it is rendered more complicated, as the administrators see it, by reason of the fact that those creditors or some of those creditors had to pay back money to LBHI through a settlement agreement in other proceedings and, whether that matters, it has to be considered.

So, on the face of it, it's a fairly knotty issue. In Mr Macnamara's witness statement he expressed the hope that once the numbers were resolved and the administrators had identified a way forward, they could be capable of agreement. That may be wishful thinking. If it isn't, it will have to be resolved, it may not necessarily even be these parties who are the relevant parties to resolve that, or at least the only parties to resolve it, because the creditors concerned may have something to say about the matter too. So it's on a slightly different track.

It appears unlikely at the moment we could fold that into this application. But if it needs another application regrettably we will have to make that in due

I don't know what the actual numbers are, in any event. We have said that we reserve for them. It may

22

be a smaller issue than we are dealing with, in any event, today. But that is, if you like, the semi-crystallised issue on partial discharge. There are various other points that have been made, particularly by Deutsche Bank, in relation to other parts of the administration, and in relation to the admission of certain creditors into the administration, the actual status of LBHI in the administration, and there is correspondence about that between my solicitors and Deutsche Bank's solicitors

As we see it, those matters aren't suitable to be re-opened. If there is going to be an application by Deutsche Bank in relation to that, so be it, but again it is not something I think we can focus on at the moment. All I wanted to say is I am not saying to the court for certain once this has been resolved everything will be clear. Because we are not in that situation unfortunately.

MR JUSTICE HILDYARD: All right. It is a very clear, Mr Beltrami. I think I would ask that such progress as is practicable to be made on these matters being made over the next couple of months before the long vacation and I should like a report from -- which can be informal, as to whether a landing has been reached or not, all by reference to the fact that if the early

1 hearing date can be given, I would like to think that 2. there was some finality being introduced if at all 3 possible.

MR BELTRAMI: My Lord, yes. MR JUSTICE HILDYARD: Yes. So I think I would like it 5

6 rehearsed or at least noted that I would expect the 7 administrators PLC and the parties concerned to have 8 sought to crystallise any issue by July 31 so that can 9 be -- so the court can know whether there is going to be 10 a need for something else or whether it can, within the 11 timetable, deal with those in October --

12 MR BELTRAMI: My Lord, yes.

MR JUSTICE HILDYARD: $\,\,--\,\,$ it which case you would have to 13 return and I would have to give directions or some judge 14 15 would have to give directions.

16 MR BELTRAMI: My Lord, yes.

MR JUSTICE HILDYARD: On the figures, and this may be in 17 18 Ms Hilliard's court rather than yours, but an invitation 19 was given to me to enquire about the effect of the

2.0 decision in the New York State court finding damages ——

21 I think rejecting the claim for 495 million, which would 2.2 affect the figures which were being juggled with by

23 reference to these applications. Is that something

25 about that? It is quite a lot of money.

MR BELTRAMI: If your Lordship wants me to obtain more detail about that, I can do so but I don't have it right now. MR JUSTICE HILDYARD: I will hear Ms Hilliard briefly on that, in just a moment. Can I get one other $--\ {\rm I}$ said I had a point which would probably betray my ignorance. It's this -- statutory interest is rather an odd bird and it doesn't really relate to any contractual entitlement, it is just what you do with the surplus in these very unusual of events of a very substantial surplus, and it is, I think Mr Justice David Richards said, to compensate people for the delay in getting their money which strikes a chord with the reason for interest in the first place. But when one reads the relevant rules on one interpretation one might think that it is just a pot available to all creditors, whatever may be their ranking, to be distributed pari passu and if that was so, why is it accepted, as it I think has been, that the unsubordinated creditors get their dibs on some element of statutory interest before anybody else? If they do, why doesn't that answer the question which is presently being raised? MR BELTRAMI: My Lord, I think the answer to your first question was Waterfall I, that was decided that the

subordinated -- the statutory interest on the

26

achieved so far as I am aware, but that is the expectation.

So the application commenced at a time when GP1 hadn't submitted a proof of debt and therefore the context of the application was slightly different to the context that we are now facing, nevertheless GP1 have said the administrators ought not to distribute pending the 2.11 issue, because they say until that issue is resolved the funds will be, they say, effectively frozen in the meantime.

That is the argument, there was a threat at one point to bring an unfair harm application against the administrators. I think that threat hasn't gone away, again it may or may not be necessary if we are actually going to proceed, and one of the advantages I think of proceeding with the global determination of everything, because if the 2.11 issue is determined at the same time, the spice in the distribution application disappears. Because if there is a trust, then one answer would be given. If there is not a trust, then the unfair harm point disappears.

So, in a sense, we circumvent some of the difficulties perhaps of the distribution application by having the matter determined in the round. I don't think there is an objection to payment, other than

1 the 2.11 point. So they go hand in hand together. 1 position. I am just trying to work out in my own mind 2 So it's another reason -- the administrators, for 2 what are the issues 3 obvious reasons, are keen to distribute to the extent 3 MR BELTRAMI: As an independent application, the main issue 4 they can and as quickly as they can out of the estate 4 would have been regardless of the 2.11 issue, should the and therefore if that can be resolved quickly then it administrators distribute? So is it a relevant harm 5 5 would be an advantage to, I think, everybody. that GP1 will not be able to pass on to -- or, they 6 6 7 As we said in our skeleton, certainly at various 7 would be able to pass on -- is it a relevant harm that points the administrators have been looking to have that GP1's ultimate creditors, the beneficial owners of these 8 8 9 application determined separately on its own because as 9 instruments will not receive the money if it is frozen 10 10 a matter of argument we don't see the unfair harm point in the holders' hands. So that would have been the main 11 biting. But pragmatically if everything can be done 11 question as an independent application. And GP1 would 12 12 in October, there is little point in having a super say it is a relevant harm and the administrators would 13 accelerated hearing on the distribution application even 13 14 14 if that were achievable before the summer. If it is wrapped up with the 2.11 issue that 15 So it is another reason why we are keen, and I think 15 question is still there just about, if this court is 16 16 all the parties are keen, to have the combined hearing going to answer the 2.11 issue, it sort of answers the 17 because it will also deal with the distribution point 17 distribution point as well. Because if the answer is 18 and others in response to that. 18 that there isn't a 2.11 trust, then there is no problem; MR JUSTICE HILDYARD: Can I just raise one point in that 19 19 the money will never be frozen anyway. If the answer is 20 2.0 there is a 2.11 trust, then at least we know where we context. There was an argument at one point whether 2.1 proof of debt is necessary. 21 stand on that and a distribution can be made in MR BEITRAMI: Yes 2.2 22 accordance with it. MR JUSTICE HILDYARD: I think something which is sometimes 2.3 23 So as I see it, one of the advantages of having the 2.4 2.4 a group debt and sometimes not a group debt, as it were. combined hearing is that much of the argument -- I don't 25 is a protesting proof of debt, as being issued. Is 2.5 think it has gone, but much of the argument about 31

1 there any issue in respect of that? MR BELTRAMI: You say is there any issue. It was issued 2 3 without prejudice to the contention that it needn't be 4 MR JUSTICE HILDYARD: Yes. 5 MR BELTRAMI: But I don't think -- I don't think it is being 6 7 suggested there isn't a proof of debt but they are 8 saying, well, you forced us to do it, we didn't need to 9 do it. But I think the argument has moved on from the 10 proof point to the harm point --11 MR JUSTICE HILDYARD: Yes. 12 MR BELTRAMI: $\,--\,$ as I see it. Because I think the reason 13 for the reluctance to issue the proof was the harm point so they kind of go in a circle . I think I have got that 14 15 right. 16 MR JUSTICE HILDYARD: In terms of the date? 17 MR BELTRAMI: Yes, because when —— the application was 18 issued before there was a proof so the question, can the 19 administrators distribute without a proof, that in 2.0 a sense, inevitably perhaps, compelled the proof, 21 therefore we have shifted the argument to the 2.2 substantive one, as should they distribute not can they 23 2.4 MR JUSTICE HILDYARD: Ms Hilliard, is itching to talk to 25 that and will have a go in a moment just to clarify the

2 3 MR JUSTICE HILDYARD: Yes. MR BELTRAMI: My Lord, I think that is all I can usefully --5 if it has been of any assistance -- provide at the 6 moment. MR JUSTICE HILDYARD: It has been of great assistance. I am 7 8 sorry to interrupt you, but the purpose of today has 9 changed in light of the provisional agreements. And we 10 are now back on track as to it being a procedural 11 hearing simply to determine what process should be 12

the distribution on its own becomes less central to the

adopted before the hearing provided the court can help you on this. I have another matter in October which is always with me really, which is the Autonomy case, and I don't know when that is going to come back. I don't think has presently been fixed. So if you leap in early in October, from my point of view you should be okay. But I must find out from listing what -- whether that will be impossible or not. I will say that this -there is an obvious -- urgency maybe too strong, but there is an obvious sense in an early hearing. MR BELTRAMI: I am grateful. I think all the parties are

23 grateful for that. I should just say, to be clear, if 2.4 that were not possible then I would be coming back and 2.5

asking for some early hearing about something. Because

I can't remember who made the point.

21	MR JUSTICE HILDYARD: Sorry, I should have clarified this.	21	I will leave that point for you to just reflect on.
22	It's the second week of October $$ can you give me the	22	MR JUSTICE HILDYARD: I think that is a point which will
23	dates of that.	23	have to be dealt with at the time.
24	MR BELTRAMI: I think it's 9 October.	24	MS HILLIARD: Very well.
25	MR JUSTICE HILDYARD: 9 October is the Monday, is it?	25	MR JUSTICE HILDYARD: Whether you issue anything to protect

1 MR BFI TRAMI: Yes MR JUSTICE HILDYARD: That is convenient to you all? 2. 3 MR BELTRAMI: My Lord, we could manage 9 October. MR JUSTICE HILDYARD: All right. 5 MS HILLIARD: Secondly, although we haven't issued 6 an application for unfair harm under paragraph 74, and 7 it doesn't need to be recorded in the order, I mention 8 it only because we may do so, and it won't take up any 9 more time because it will simply be responsive to the 10 distribution application, and as you already realise and 11 appreciated, if everything is going to be determined at 12 the same time, the distribution application may well go. 13 My only concern is that Lehman seems to be beset by appeals and cross appeals and so if one -- if LBHI don't 14 15 win on their clause 2.11 point, they may well want to 16 seek permission to appeal. And if they win on the 17 clause 2.11 point, Deutsche Bank may well seek 18 permission to appeal. In those circumstances we would 19

win on their clause 2.11 point, they may well want to seek permission to appeal. And if they win on the clause 2.11 point, Deutsche Bank may well seek permission to appeal. In those circumstances we would welcome some confirmation from the joint administrators that their agreement not to distribute will continue. Because the issue about freezing of the proceeds would still — will still be there. So — unless, for example, LBHI if they fail, will say, well, a distribution can be made and we won't stop and we won't seek to claw back any of the proceeds. But

38

1 yourselves I leave to you, but from my point of view 2. I don't think I should jump that stile at the minute. 3 MS HILLIARD: Very well, my Lord. Two other points. You did raise with Mr Beltrami the fact that will there are 5 issues outstanding in the estate and Mr Beltrami 6 indicated that it shouldn't affect anything. Well, to 7 a certain extent it does affect things, and this issue 8 about estimated outcomes is actually very curious. 9 In April 2022 the PLC joint administrators issued 10 a statement with estimated outcomes, with a low case of 11 219 million after all unsubordinated creditors had been 12 paid and a high case of 403 million. Now, that was 13 in April 2022. You then had the most recent report of 14 the joint administrators as at March 2023, or slightly 15 after that, and they say no change.

39

Now, by that time the existence of that New York judgment where LBIE had failed to succeed in their claim for 495 million had been handed down and yet Mr Macnamara in his seventh witness statement says there is no change in the estimated outcome. That is very curious.

MR JUSTICE HILDYARD: It was a curiosity which I think

Mr Beltrami didn't want to explore and I can see —— it

may be that by whatever time it was, that that hadn't

really been included as a likely recovery, I don't know.

25	On the clandestine agreement, the waiver agreement,	25	MR JUSTICE HILDYARD: It is just when you are dealing with

41

I'm afraid to say, was clandestine. We were presented with this so-called waiver agreement between LBHI and the joint administrators literally a week ago. We had no idea that it was being negotiated, and we had no idea of its existence so it was -- secret, clandestine, use whatever term you like but it is very odd that nobody told us about it and it is an even more curious agreement because the terms of the agreement are such that this so-called waiver terminates in June 2023. In other words, the terms of the agreement are that if the joint administrators haven't made a distribution to us, GP1, by June 2023 the waiver goes.

Well, there may well be some kind of economic rationale for it but it did look as though we were being engineered into a situation where the money would be frozen, because of the clause 2.11 agreement, and -- but notwithstanding that, the joint administrators have entered into an agreement without our knowledge, I think that is clandestine, making sure that a distribution would be made to GP1 in circumstances where it would effectively not be able to be used by the ultimate beneficial holders, who everybody accepts -- it might be that the money comes to us but everybody accepts that the ECAPS holders are the ultimate beneficial holders, and they are the ones with the economic interest in

2. are professional people, on the whole they do get a bit 3 itchy about it being said they are behaving improperly and then the question is why is that being said. If it 5 is being said to no purpose then it shouldn't be said. 6 If it is being said to some purpose, I would like to 7 know what it was. And you have explained it was really 8 in order to -- in case the peace, as it were, was not 9 brokered and you had to make --10 MS HILLIARD: Exactly so, my Lord. MR JUSTICE HILDYARD: $\,--\,$ some timing issues. 11 12 MS HILLIARD: Exactly so. The final point I want to address 13 you on is the point about the proof of debt which was 14 lodged with reservation and without prejudice. The 15 reason why it was done that way is again in the context 16 of the distribution application. Our concern was that 17 the rules, the Insolvency Rules 14.32 provide that 18 an office -holder is not obliged to deal with a late 19 proof of debt unless they want to. It gives them 2.0 complete discretion. So what we wanted to guard against 21 was the risk, because clearly -- clearly LBHI, and 2.2 possibly LBL, have their agenda as creditors of the 23 joint administrators and GP1 has its agenda for the 2.4 benefit of the ultimate holders of the ECAPS, and what 25

we wanted to do was just guard against an unholy row

people who have been in the saddle for some time and who

3 these allegations which were made in writing and in my 4 learned friend's skeleton. 5 MR JUSTICE HILDYARD: Mr Beltrami, I understand that, but 6 the thing is they are not being withdrawn. MR BELTRAMI: No, they haven't been withdrawn and therefore 7 8 I have to make it quite clear they are entirely 9 rejected, each and every one of them, on the basis that 10 frankly they should never have been made, I want to make 11 that absolutely clear. The suggestion that an agreement 12 to which they were not even a party was called "clandestine" because they didn't know about it, is 13 frankly bizarre, I don't understand the basis on which 14 15 it could be said they ought to have been told in advance 16 and therefore if they weren't, it should be called 17 "clandestine"

The allegation that something has been engineered to their disadvantage, in the skeleton and repeated orally, is incoherent in circumstances in which we have made it clear we will not be distributing until the court has dealt with the application. Each of those allegations made in the skeleton we submit should not have been made, ought to have been withdrawn today, and certainly ought not to have repeated.

46

3 come to. The point which Ms Hilliard made which does bother me is in the range of low and high, she has 5 explained that the mathematics are that the 6 proportionality or even sense of disputing some of these 7 points would go if the low estimate proved to be the 8 right estimate. I think I ought to know a little bit 9 more about this before setting the good ship sailing to 10 an early date. 11 MR BELTRAMI: They wouldn't all go. They wouldn't all go. 12 What we have called issue 1, where statutory interest comes in the waterfall, if that is the right term, would 13 be a live issue, even on the low case. Issue 2, which 14 15 is concerned with the figure upon which you calculate 16 statutory interest, may become redundant on the base 17 case. I don't know the exact figure, but I can see that 18 may be so. And issue 3, as to the date on which the 19 statutory interest starts, that also appears to be live 2.0 even on the base case.

So if it is a base case point, and I think this is what they said in their skeleton, and I think it is right, it would on the face of it affect issue 2 only. Now, whether the base case is the right case or high case, I don't know --

The second basis is assumed to rank in priority ahead of LBHI's principal claim. That is issue number 1: who gets priority between the principal and the statutory interest.

And:

"... for the purpose of this illustration, is assumed to accrue for 17 years from the date LBH entered into administration."

That is issue 3.

So for each of those issues the administrators had proceeded on a basis as set out, notwithstanding the fact that each basis is now in dispute. Those bases. just to indicate, reflect varying positions between the parties. So of the three I have mentioned, the discounted claim point, GP1 disputes that and claims that it ought to be on the face value not the discounted amount. The priority issue. LBHI disputes that one and says it should have priority over statutory interest. And for the date of accrual point, LBHI disputes that one because it says it should be from the date of proving not the date of administration.

So on the basis of those assumptions, the administrators have dealt with the high and low case. I have explained how much goes to which party and you will see on the basis of those assumptions the bulk of

the -- all of the base case goes to GP1, and the bulk of the high case goes to GP1. But of course that is dependent on how you treat the assumptions, either way. We haven't done tables for all the different assumptions and all the different permutations.

The reality is, my Lord, the administrators wouldn't be bringing these applications to court unless they thought there was something worth fighting about. So in a sense it is a slightly circular question, if no money were at stake we wouldn't need to ask the questions, we are not asking the questions for the sake of the development of the law, we are asking the questions because, on the basis of these projections, the administrators consider that the questions matter or may matter and, therefore, need determination,

What I can't show you from this report is how these base case figures or high case figures are made up, nor, with respect, will I, unless the court absolutely determines it. The ECAPS, for example, are traded on the market, therefore there is information behind base numbers, et cetera, and the administrators are careful as to what they do and don't say in respect of what they put in their projections. So there is no more detail I can give as to how they are reached but, as I say, the

54

2.4

figures on my instructions haven't changed,

notwithstanding that judgment.

I can't -- I asked specifically but I can't go any further in relation to that because the more one delves into the detail, the more one gets into other issues which we don't want to address. But standing back from that, the administrators are still of the belief that the questions that are raised matter given the amounts projected on the high and low case basis.

9 MR JUSTICE HILDYARD: Yes. I suppose people do participate 10 in litigation by quantifying how much of that is -- but there we are, you can't help me. And it follows, does 11 12 it, you can't help me —— supposing LBIE, which 13 I understand to have been the claimant in the New York

14 proceedings adjudicated, supposing LBIE had succeeded in 15 those claims, would that have affected the cases, high

16 and low in PLC's administration?

17 MR BELTRAMI: I don't think I am going to venture an answer 18 to that question.

MR JUSTICE HILDYARD: Well, it seems odd in a way, 19

20 Mr Beltrami, I understand your individual position but 21 it seems odd that there is absolutely no guidance on how

22 that would have or not have affected. I can't remember

23 quite what the flows of money are. Your company is

2.4 downstream of LBIE, as it were --

25 MR BELTRAMI: Yes.

55

1 MR JUSTICE HILDYARD: -- but it seems odd that it wasn't 2 affected at all.

3 MR BELTRAMI: They are different questions. I am not talking at the moment with any better knowledge, but

5 there are different questions as to how it affects

6 Because losing would affect if winning were included. 7 Winning could affect even if it wasn't included in the

8 calculations. So it is not quite symmetrical either 9

MR JUSTICE HILDYARD: That is why I asked it that way round, 10 11 which was the other way round than I had asked

12 previously

MR BELTRAMI: Yes. Instinctively one would imagine that 13 14 could make a difference, but I simply don't want to go

15 where I can't go in relation to that. But what I am 16 told is that the judgment which was given has not made

17 a difference in the administrators' current assessment

18 of those numbers.

19 MR JUSTICE HILDYARD: Right, and it has not made any difference to the likelihood or not of either base or 2.0

21 higher -- low or high? Estimates?

2.2 MR BELTRAMI: Well, I am not sure --

MR JUSTICE HILDYARD: In the events that have happened since 23

April 2022 you are no further forward in determining

25 which is the more likely, low or high case?

1	MR BELTRAMI: Well, again, one has to be careful as to where	1	issues, but there is a concern broadly about the

Third, I am the Lehman—assigned judge but there is

1	the outside possibility that some other preoccupation	1		INDEX

3	Marcus Smith or some other judge who is familiar with	3	Directions hearing	1

8	Fourth, you will before the summer term ends make	8			
9	all reasonable efforts to see whether there are points	9

12	the timetable of five days and if they are not,	12			
13	explaining the reason why, so that we can know roughly	13			
14	when things are going to end. That will be important	14			
15	anyway because these administrations have been	15			
16	repeatedly extended, I think yours lasts until 2025,	16			
17	does it, so you have a bit more lead time, but some are	17

23	Sixth, I have suggested that of the points made	23

2	which is the clause 2.11 point. So I will need				
3	particular help as to why that wouldn't then run				
4	a decision of the Court of Appeal, whatever its merits.				
5	I will want to deal with the merits in any event. That				
6	seems to me a more difficult point, if I can put it that				
7	way, than the statutory interest point, given that the				
8	statutory interest in its application to subordinates				
9	after the unsubordinates seems to me interesting.				
10	MR BELTRAMI: My Lord, it's all interesting but				
11	MR JUSTICE HILDYARD: Does that deal with all the points?				
12	MR BELTRAMI: I think that does deal with all the points.				
13	MR JUSTICE HILDYARD: It's a very strong cast so I am very				
14	grateful to all of you and to all those who helped you				
15	and particularly grateful you were able to reach this				
16	consensus, which is really , really helpful . You will				
17	get that minute of order, and I will have it sealed,

3 Agreement as to distributions to subordinated creditors of PLC and the ECAPS Account Holders (the "Agreed Distributions")

The Parties will agree that the PLC Administrators will distribute the funds of PLC available for distribution to subordinated creditors of PLC ("Available Funds") according to the following scheme:

- Tier X: (Subject to the Tier X Distribution Conditions below) the first £187.4m of Available Funds shall be distributed to GP1 and LBHI in the order of priority and the proportions set out below (the "Tier X Distributions"):
 - a. First, GP1 to be paid 92% (the "GP1 Tier X Distribution"); and
 - b. Second, LBHI to be paid 8% (the "LBHI Tier X Distribution").
- ii. Tier Y: (Subject to the Tier Y Distribution Conditions below) the Parties agree that the next £225m of Available Funds after payment of the Tier X Distributions in full shall be distributed to GP1 and LBHI as applicable pro rata between GP1 and LBHI as and when funds become available for distribution by the PLC Administrators, (the "Tier Y Distributions"):
 - a. If GP1 and/or DB prevail in relation to Priority Legal Issue 1 (in the form of a final and non-

appealable order or decision of the court/appellate court having the effect that statutory interest payable on the claim in respect of the PLC Sub-Notes ("Claim D") falls to be paid in priority to the principal amount of the PLC Sub-Debt ("Claim C") (an "ECAPS Outcome")), to be applied:

- i. 94% to GP1; and
- ii. 6% to LBHI.
- b. If LBHI prevails in relation to Priority Legal Issue 1 (in the form of a final and non-appealable order or decision of the court/appellate court having the effect that the principal amount of Claim C falls to be paid in priority to statutory interest payable on Claim D) (an "LBHI Outcome"), 100% to LBHI.

Once Tier Y Distributions in respect of (a) or (b) above have been made which total £225m (the "Maximum Tier Y Distributions"), any further distributions shall be Tier Z Distributions (defined below).

- iii. Tier Z: (subject to the Tier Z Distribution Condition) any and all further Available Funds after payment of the Tier X Distributions and the Maximum Tier Y Distributions in full will be distributed by the PLC Administrators as follows:
 - a. If there is an ECAPS Outcome in relation to Priority Legal Issue 1, to be split 42% (GP1) and 58% (LBHI);
 - b. If there is an LBHI Outcome in relation to Priority Legal Issue 1, to be split 12% (GP1) and 88% (LBHI);

(the "Tier Z Distributions").

The Parties will use reasonable endeavours to agree and incorporate into the Framework Agreement provision as to the economic split of Tier Y and Tier Z in the event that, at the conclusion of the current court directions application process (including any appeals) there is neither an ECAPS Outcome nor an LBHI Outcome to Priority Legal Issue 1. If the Parties are unable to agree such split by the time of signing the Framework Agreement, the Framework Agreement shall include a provision requiring the Parties in such a scenario to consult and negotiate in good faith to reach agreement as to the distribution of Tier Y and Tier Z consistent with the Framework Agreement and any judgment or order which the court/appellate court may have made on Priority Legal Issue 1.

Distribution Conditions

Tier X Distribution Conditions:

- iv. The PLC Administrators shall cause the GP1 Tier X
 Distribution to be paid promptly (allowing for such time as is reasonably required to take the necessary administrative and practical steps to effect such payments) to GP1 following the Effective Date without deduction or withholding (save for any applicable taxes) and notwithstanding that statutory interest payable to PLC's unsubordinated creditors may not have been distributed at such date.
- v. GP1 shall cause an amount equal to the GP1 Tier X
 Distribution less any amounts subject to the Reserve and
 Reimbursement Agreement to be promptly (allowing for
 such time as is reasonably required to take the necessary
 administrative and practical steps to effect such
 payment) distributed to the ECAPS Account Holders
 without deduction or withholding (save for any
 applicable taxes) (the "ECAPS Tier X Distribution").
- vi. For the avoidance of doubt, the GP1 Tier X Distribution and the ECAPS Tier X Distribution shall be paid promptly notwithstanding that remaining statutory interest payable to PLC's unsubordinated creditors may not have been distributed at such time.
- vii. All Parties shall agree and acknowledge that they will not take any step which may have the direct or indirect effect of preventing, impeding or delaying (i) the GP1 Tier X Distribution to GP1; (ii) the ECAPS Tier X Distribution to ECAPS Account Holders without deduction or withholding (save for any applicable taxes); (iii) any payment by ECAPS Account Holders to Beneficial ECAPS Interest Holders; or (iv) the LBHI Tier X Distribution, and all Parties shall agree to use all reasonable endeavours to resolve any issues which prevent, impede or delay (or may prevent, impede or delay) the distributions referred to in (iv)-(vi) of this section.
- viii. The Parties agree that the LBHI Tier X Distribution will be made 35 days after the date the GP1 Tier X Distribution is made, unless [**] of DB (as an ECAPS Account Holder) provides notice to LBHI, GP1 and PLC that it has not received payment through the clearing systems of its pro-rata share of the ECAPS Tier X Distribution (after deducting the amount of any reserves) within 30 days of the GP1 Tier X Distribution. If DB gives such notice DB

and GP1 shall provide details of the steps taken to ensure that DB receives its share of the ECAPS Tier X Distribution and DB shall notify PLC and LBHI promptly, and in any event within 2 days of receipt, of such distribution. Payment of the LBHI Tier X Distribution shall not be conditional upon any payments having been made to any other ECAPS Account Holder or any Beneficial ECAPS Interest Holders. For the avoidance of doubt the LBHI Tier X Distribution shall be paid in accordance with this paragraph viii, notwithstanding that remaining statutory interest payable to PLC's unsubordinated creditors may not have been distributed at such time.

- ix. GP1 will retain a reserve of £20,747,680 from GP1 Tier X Distributions, as further described in Schedule 2.
- x. If the Parties so agree prior to the date of distribution of the GP1 Tier X Distribution, an amount of GP1 Tier X Distributions not exceeding £4.4m may be retained by the PLC Administrators for distribution to GP1 at a time to be agreed by the Parties (being no later than the time of any Tier Y Distribution). For the avoidance of doubt, the retention of any such amount shall not delay the distribution of the LBHI Tier X Distribution.
- xi. Also pursuant to the Reserve and Reimbursement.
 Agreement, following receipt of the GP1 Tier X
 Distribution, certain payments will be made among the ECAPS Issuers in accordance with the Reserve and Reimbursement Agreement as further set out in Schedule 2.
- xii. PLC, the PLC Administrators, LBHI and PLP to agree to release all and any rights or claim to the GP1 Tier X Distribution, the ECAPS Tier X Distribution or any partnership assets of the ECAPS Issuers or their proceeds in the hands of any ECAPS Account Holder, Beneficial ECAPS Interest Holder, GP1, the JLs or any ECAPS Issuer, including any claim under Clause 2.11 or any other clause of the ECAPS Deeds of Guarantee or otherwise, subject to Section 4(viii) (for the avoidance of doubt, the cessation of the effectiveness of any Party's release of an ECAPS Holder as a result of Section 4(viii) is limited to the release of the specific ECAPS Holder who brings any claim as described in that Section and is without prejudice to any other ECAPS Holder). GP1 and DB to agree to release all and any rights or claim to the LBHI Tier X Distribution.

For the avoidance of doubt each of the Tier X Distribution conditions are without prejudice to the matters stated in section 5 (Claims to Continue) below.

Tier Y Distribution Conditions

All Parties to agree that no Tier Y Distribution will be made before:

xiii. PLC's senior creditors' remaining entitlement to statutory interest (subject to and if necessary adjusted for the resolution of the Partial Discharge Issue) has been satisfied in full; and

xiv. an ECAPS Outcome or an LBHI Outcome or the parties otherwise agree a settlement in writing, in respect of Priority Legal Issue 1. Any settlement agreed in respect of Priority Legal Issue 1 must include an agreement as to the distribution of Tier Y.

Tier Z Distribution Conditions

All Parties to agree that no Tier Z Distribution will be made before an ECAPS Outcome or an LBHI Outcome, or the Parties otherwise agree a settlement in writing, in respect of Priority Legal Issue 1. Any settlement agreed in respect of Priority Legal Issue 1 must include an agreement as to the distribution of Tier Z.

Tier Y and Z Distribution Conditions

i. If there is an ECAPS Outcome, PLC will retain the first £8.063m (the "Joint Reserve") of any Tier Y Distribution (for the avoidance of doubt, 94% of the Joint Reserve to be from Tier Y Distributions otherwise payable to GP1 and the remaining 6% from Tier Y Distributions otherwise payable to LBHI), to be applied towards the costs and expenses (including legal fees) of the Parties of defending any ECAPS Prohibited Action, such costs to have been incurred after the Effective Date but whether before or after the establishment of the Joint Reserve. No Party shall be entitled to any amount of the Joint Reserve in respect of costs and expenses it incurs in relation to any ECAPS Prohibited Action in circumstances where that Party has encouraged, assisted or incited the relevant ECAPS Holder to take such action.

The Parties will negotiate and provide for the detailed terms by which the Joint Reserve will operate and any payments from it will be made in the Framework Agreement.

For the avoidance of doubt, the Joint Reserve will be separate from and will not affect any reserves which the PLC Administrators may consider it appropriate to maintain from time to time (without prejudice to the agreed timing of the Tier X Distributions under the Framework Agreement).

- ii. The Joint Reserve shall be reduced by £806,300 for each 5% (calculated by reference to the face value of ECAPS held of the total ECAPS in issue across all ECAPS Issuers) of additional ECAPS Holders across all ECAPS Issuers that execute a Letter of Support in the form appended hereto (or are or become bound by the Framework Agreement or terms equivalent thereto) beyond 50% (so, for example, if 80% by value of ECAPS Holders of all ECAPS in issue across all ECAPS Issuers executed Letters of Support or are or become bound by the Framework Agreement, the Joint Reserve would reduce to £3,225,200), subject to a floor of the aggregate costs and expenses incurred at the relevant date.
- iii. The Joint Reserve shall be immediately released on the earlier of:
 - a. the effective date of any scheme of arrangement, restructuring plan, corporate action, consent solicitation or other agreement, resolution, compromise or arrangement, that has the effect of binding all ECAPS Holders to terms equivalent to the Framework Agreement or which otherwise has the effect of preventing ECAPS Holders from validly taking any ECAPS Prohibited Actions; and
 - b. the later of:
 - i. two years from the Effective Date; and
 - ii. one year from the last communication (occurring after the Effective Date) from an ECAPS Holder threatening or asserting any ECAPS Prohibited Action, provided that no claim or action has been filed, is pending or ongoing, that has not been irrevocably dismissed, withdrawn or determined in the form of a final and

non-appealable order or decision of the court/appellate court or other final settlement.

- "ECAPS Prohibited Action" means any action taken by an iv. ECAPS Holder (and strictly in its capacity as an ECAPS Holder) after the Effective Date against LBHI, DB, GP1, the JLs, PLC, the PLC Administrators, a UK Affiliate or a LBLIS Group Entity or any of their respective past or present office holders, directors or officers that would have been prohibited by the releases and other provisions in the Framework Agreement, if the relevant ECAPS Holder had been a party to the Framework Agreement on similar terms to DB (or, if the relevant ECAPS Holder takes action against DB, on similar terms to LBHI and PLC) and for the avoidance of doubt does not include any action taken by an ECAPS Holder in circumstances where that ECAPS Holder's interest in ECAPS is unrelated to the relevant action.
- v. For the avoidance of doubt, if an ECAPS Holder takes an ECAPS Prohibited Action against PLC or the PLC Administrators after the Effective Date, the PLC Administrators retain all of their rights to discharge their costs and expenses from the PLC estate.
- vi. All Parties to agree that promptly (allowing for such time as is reasonably required to take the necessary administrative and practical steps to effect such payment) following the payment of any amount to GP1 in respect of a Tier Y Distribution or Tier Z Distribution (the "GP1 Tier Y/Z Distribution"), GP1 shall cause an amount equal to such amounts less any amounts subject to the Reserve and Reimbursement Agreement to be distributed to the ECAPS Account Holders without deduction or withholding (save for any applicable taxes) (the "ECAPS Tier Y/Z Distribution").
- vii. All Parties shall agree and acknowledge that they will not take any step which may have the direct or indirect effect of preventing, impeding or delaying (i) the GP1 Tier Y/Z Distribution to GP1; (ii) the ECAPS Tier Y/Z Distribution to ECAPS Account Holders without deduction or withholding (save for any applicable taxes); (iii) any payment by ECAPS Account Holders to Beneficial ECAPS Interest Holders; or (iv) payment to LBHI of LBHI's share of the Tier Y Distribution or the Tier Z Distribution (the "LBHI Tier Y/Z Distribution"), without prejudice to

4	Rights and claims to be settled / released / covenant not to sue:	As a consequence of the Parties' agreement in respect of distributions to PLC's subordinated creditors (as outlined above):					
	covenant not to sue:	Existing Applications					
		 The Parties to the ECAPS 2 Application will sign a consent order (the "ECAPS 2 Consent Order") to (among other things): 					

- a. withdraw Priority Legal Issues 2, 3, 4 and 5 from the directions application made by the PLC Administrators on 14 March 2023 (the "ECAPS 2 Application");
- withdraw Priority Legal Issues 4 and 5 from DB's application dated 27 April 2023 to strike out certain issues in the ECAPS 2 Application (the "Strike Out Application"); and
- withdraw the PLC Administrators' further application dated 25 April 2023 (the "Distribution Application").

The PLC Administrators agree to then apply to the High Court or otherwise contact the High Court to seek approval of the consent order.

ii. GP1 will release its claims against the Individual Respondents (including the PLC Administrators) in respect of GP1's application dated 8 April 2022 (the "7(f) Application"), and GP1 and the Individual Respondents (including the PLC Administrators) agree to enter into a consent order confirming the discontinuance of the proceedings with no order made as to costs (the "7(f) Consent Order", see further below).

In that context, a separate settlement agreement to be entered into in relation to the 7(f) Application and the 7(f) Issue (as defined below), entry into which is a condition to the effectiveness of the Framework Agreement (the "7(f) Application Settlement").

The Individual Respondents and their advisers and agents and their firms, staff and personnel are to be released by GP1, the ECAPS Issuers, LBHI, DB, PLP, and PLC from any and all claims related to, arising out of or in any way connected with the facts and matters which are the subject of the 7(f) Application (the "7(f) Issue") in their capacity as current or former administrators of PLC or as current or former administrator, liquidator or insolvency officeholder of any other UK Affiliate (as defined below) (the "Individual Respondents Released Claims"). Each releasing party shall also covenant not to sue in respect of the Individual Respondents Released Claims or the 7(f) Issue and shall undertake not to and shall procure that their affiliates shall not commence, continue, prosecute, pursue, encourage, assist or threaten any such suit against any person.

LBL, the LBLIS Group Entities (as defined below) and LBUKH and their respective current and former officers, directors administrators, liquidators and/or other insolvency officeholders (including their respective advisers and agents and their firms, staff and personnel) are to be released by GP1, the ECAPS Issuers, LBHI, DB, PLP, and PLC from any and all claims related to, arising out of or in any way connected with the 7(f) Issue (the "EMEA Affiliate Released Claims"). Each releasing party shall also covenant not to sue in respect of the EMEA Affiliate Released Claims or the 7(f) Issue and shall undertake not to and shall procure that their affiliates shall not commence, continue, prosecute, pursue, encourage, assist or threaten any such suit against any person. Each releasing party shall also covenant not to sue in respect of the Individual Respondents Released Claims and shall undertake not to and shall procure that their affiliates shall not commence, continue, prosecute, pursue, encourage, assist or threaten any such claim against any person.

Where any Individual Respondent or UK Affiliate takes action against LBHI, GP1, the JLs or any ECAPS Issuer or DB that would be prohibited by the terms of the Framework Agreement, if that Individual Respondent or UK Affiliate had signed the Framework Agreement on similar terms as PLC, LBHI's, GP1's, the JLs', the ECAPS Issuers' or DB's release and covenant not to sue pursuant to the above will cease to be effective as against that specific person or entity only (and, for the avoidance of doubt, the remaining release in favour of the other persons and entities would remain in full force and effect).

Provision shall be made for third party enforcement rights in relation to the Individual Respondents Released Claims and EMEA Affiliate Released Claims for parties who take the benefit of the releases and covenants not to sue but are not signatories to the agreement.

GP1, the JLs, the ECAPS Issuers, the Individual Respondents, the PLC Administrators, PLC, DB and PLP agree that the 7(f) Application shall be discontinued on the basis set out in the 7(f) Application Settlement and agree that each party shall meet its own costs in connection with the 7(f) Application, including the 7(f) Application Settlement, subject in the case of the PLC Administrators to paragraph 6 below.

GP1, the JLs, the Individual Respondents and the PLC Administrators undertake to take all reasonably necessary steps to secure the discontinuance of the 7(f) Application.

Other claims and rights

UK Affiliates and LBLIS Group Entities

 GP1, the JLs, the ECAPS Issuers, DB, LBHI and PLP to release all claims, challenges, rights and/or causes of action to which any of them are entitled as at the Effective Date in respect of actions and matters occurring prior to the Effective Date against any of the "UK Affiliates" (including PLC) or the "LBLIS Group Entities" (as each of those terms is defined in the 2011 Lehman US/UK settlement agreement), but except for, subject and without prejudice to:

- a. Any claim, challenge, cause of action, right, entitlement or interest in relation to and the full pursuance of actions or assertion of rights or arguments in relation to the matters stated in *Claims to continue* below;
- b. In respect of LBHI and PLP, any rights arising under any agreements entered into after 15
 September 2008 to which PLC and/or the PLC
 Administrators, and/or another UK Affiliate
 and/or LBLIS Group Entity, on the one hand, and
 LBHI and/or PLP on the other, are a party or are
 otherwise currently bound;
- c. - of ECAPS) have consented, such consent not to be unreasonably withheld or delayed. The Parties agree that it shall not be reasonable to withhold or delay consent if the proposed transfer or assignment by LBHI of the PLC Sub-Debt is for value, unless there is a genuine demonstrable risk that the assignment or transfer could undermine the Framework Agreement or that the assignee intends to breach, undermine or take action inconsistent with the Framework Agreement);
- iii. DB shall not assign, transfer or dispose of its interests in the ECAPS, including in the ECAPS Deeds of Guarantee, unless the relevant assignee or transferee has agreed to be bound by the terms of the Framework Agreement.
